# T.L.C Solutions L.L.C.

*Technological Literacy Curriculum Solutions*

T.L.C. Solutions L.L.C. brings you **DeskProto**, the most inexpensive, user-friendly computer-aided manufacturing software available today. This software will allow your students to quickly and easily produce tangible prototypes of their 2D and 3D designs using a desktop milling machine. The included teacher-based PowerPoint, student tutorials, student assessments, and example files will get your students up and running in no time. Finally, you can get the use out of your CNC milling machine at a fraction of the cost of other programs.
